David Nachbar

Has What It Takes To Reform Albany and Get Our Economy Back on Track

Cleaning up the mess in Albany is no easy task. That's why we need David Nachbar as our next representative in the State Senate. As a successful businessman who has managed complex budgets and helped create local jobs, David will put his experience to work to restore accountability to state government.

David Nachbar has been endorsed by Senator Chuck Schumer.

Reform Albany and Balance the Budget

While our state faces a \$7 billion deficit and families are struggling to make ends meet, State Senators are making almost \$100,000 a year for only 63 days of work. David Nachbar knows that's just unacceptable. That's why he will fight to eliminate wasteful

programs, rein in pork-barrel spending and balance our state budget.

Take a Smart Approach to Creating Jobs

David Nachbar knows how to create jobs. At Bausch & Lomb, he was part of a team that added over 400 jobs in Monroe County. In the State Senate, David will

fight for lower property taxes, less bureaucracy and more investments in research and technology to attract biotech, nanotech, alternative energy and other new businesses to our community.

Build a Skilled Workforce

Increasingly, new jobs require highly trained workers. That's why David will push for smart investments in educating our workforce – from the classroom to adult education to job retraining – so that those left behind in the current economic recession can get the work they need to support their families.

David Nachbar will bring the common-sense business approach that we so desperately need to reform Albany and get New York back on the right track.

“New Yorkers deserve to be mad as hell at Albany.”

“The place needs a thorough cleaning — a giant broom to sweep out the rascals, starting with the State Legislature... Here's how to change Albany: find and support somebody daring...to run against the local legislator.”
